

Census Bureau, Commerce

§ 50.50

surcharge of \$300 per map sheet requiring revision will be applied to the fee for the particular area.

(2) *Maps*: (i) In order for the Bureau to provide data on a block-by-block basis, it must have a map which clearly delineates each block. The contracting government authority must supply such maps. A copy of the specifications for preparing the block maps will be provided upon request and, in any event, will accompany the copy of the contract which is sent to the government authority for signature.

(ii) The maps must be furnished to the Census Bureau within 30 calendar days after the government authority signs the contract.

(iii) The Bureau will review the maps and, if revision is necessary, return them within 30 calendar days to the government authority.

(iv) Within 30 calendar days thereafter, the revised maps must be transmitted to the Bureau and, if they are still inadequate and must therefore be redrafted by the Bureau, the above-mentioned surcharge of \$300 per map sheet requiring revision will be imposed.

(3) *Timing*: (i) The contract must be signed, and a downpayment of \$250 per area made, by April 1, 1978. A check or money order should be made payable to "Commerce—Census."

(ii) If an area decides to withdraw after signing a contract and making a downpayment, the cost of work performed to date will be deducted from the refund.

(iii) The balance of the fee must be mailed to the Bureau by January 1, 1980.

(d) In consideration of the fees paid and maps supplied, the Bureau will:

(1) Identify the individual blocks in its records and tabulations.

(2) Make available the block data for the particular area in the same manner as for areas in the regular block statistics program (*i.e.*, both in terms of printed reports and computer summary tapes). Two copies of the printed report (including the printed maps) which contain the block statistics for the particular area will be furnished to the contracting government authority.

(e) Requests for participation in the contract block statistics program or

for further information should be addressed to the Director, Bureau of the Census, Washington, DC 20233.

[43 FR 3903, Jan. 30, 1978; 43 FR 59835, Dec. 22, 1978]

§ 50.50 Request for certification.

(a) Upon request, the Census Bureau certifies certain statistical materials (such as the population and housing unit counts of government entities, published tabulations, maps, and other documents). The Census Bureau charges customers a preset fee for this service according to the kind of certification requested (either an impressed document or an attestation) and the level of difficulty involved in compiling it (easy, moderate, or difficult, determined according to the resources expended) as well as the set cost of the data product (e.g., report or map) to be certified. Certification prices are shown in the following table:

PRICE BY TYPE OF CERTIFICATION

Product	Estimated price	Estimated time to complete (in hours)
Impress-easy	\$70.00	1.5
Impress-medium	110.00	3
Impress-difficult	150.00	4.5
Attestation-easy	160.00	3
Attestation-medium	200.00	4.5
Attestation-difficult	240.00	6

(b) There are two forms of certification available: Impressed Documents and Attestation.

(1) *Impressed Documents*. An impressed document is one that is certified by impressing the Census Bureau seal on the document itself. The Census Bureau act, Title 13, United States Code, Section 3, provides that the seal of the Census Bureau shall be affixed to all documents authenticated by the Census Bureau and that judicial notice shall be taken of the seal. This process attests that the document on which the seal is impressed is a true and accurate copy of a Census Bureau record.

(2) *Attestation*. Attestation is a more formal process of certification. It consists of a signed statement by a Census Bureau official that the document is authentic and produced or published by

§ 50.60

the agency, followed by a signed statement of another Census Bureau official witnessing the authority of the first.

(c) Requests for certification should be submitted on Form BC-1868(EF), Request for Official Certification, to the Census Bureau by fax, (301) 457-4714 or by e-mail, webmaster@census.gov. Form BC-1868(EF) is available on the Census Bureau's Web site at: <http://www.census.gov/mso/www/certification/>.

A letter request—without Form BC-1868(EF)—will be accepted only if it contains the information necessary to complete a Form BC-1868(EF). No certification request will be processed without payment of the required fee.

[67 FR 54951, Aug. 27, 2002]

§ 50.60 Request for certification.

(a) *Certification Process.* Upon request, the Census Bureau certifies population and housing counts of standard governmental units to reflect boundary updates, including new incorporations, annexations, mergers, and so forth. The Census Bureau will produce a certificate, that is, a signed statement by a Census Bureau official attesting to the authenticity of the certified Census 2000 population and housing counts to reflect updates to the legal boundaries of governmental units after those in effect for Census 2000. This service will be a permanent process, but one that will be temporarily suspended during future decennial censuses. Typically, the Census Bureau will suspend this service, and direct its resources to the decennial census, for a total of five years—the two years preceding the decennial census, the decennial census year, and the two years following it. The Census Bureau will issue notices in the FEDERAL REGISTER announcing when it suspends and, in turn, resumes, the service.

(1) The Census Bureau charges customers a preset fee for this service according to the amount of work involved in compiling the population and housing counts, as determined by the resources expended to meet customer requirements and the set cost of the product (one certificate). Certification fees may increase somewhat if the customer requests additional original certificates. Each additional certificate

15 CFR Subtitle B, Ch. I (1-1-07 Edition)

costs \$35.00. Certification prices are shown in the following table:

DESCRIPTION AND ESTIMATED FEE

Standard governmental units	Estimated fee
Annual Certification	\$693 to \$1,799.
Expedited Certification	1,530 to 9,075.

(2) [Reserved]

(b) *Description of Certification Types.* The Census Bureau will process requests for population certificates for standard governmental units, in accordance with the Census Bureau's annual certification schedule or under an expedited certification arrangement. The boundaries for standard governmental units are regularly and customarily updated between decennial censuses by the Census Bureau's geographic support system. These governmental units include a variety of legally defined general- and special-purpose governmental units, including counties and statistically equivalent entities, minor civil divisions, incorporated places, consolidated cities, federally recognized American Indian reservations, and school districts. A complete list of entities is defined in paragraph (c) of this section.

(1) *Annual Certification.* Annual population and housing certification is available around October 1 of each calendar year to new or existing governmental units that report legal boundary updates in the Census Bureau's annual Boundary and Annexation Survey. In accordance with reporting requirements of this survey, the legally effective dates of the boundary updates may not be later than January 1 of the calendar year. These certifications are available through September of the following year.

(i) The annual certification service also is available to standard governmental units that are not in the Boundary and Annexation Survey of that year. Governmental units electing participation in this service must draft the legal boundary updates upon Census Bureau-supplied maps. The legally effective dates of the boundaries may not be later than January 1 of the calendar year. The Census Bureau must receive the census maps annotated with the legally certified boundaries
